VMO Holdings

Frontend Web Developer

March 2023 - April 2025 (2 years 2 months)

Hanoi, Hanoi, Vietnam

Global Product: Cybersecurity Analytics Platform

- Overview: Advanced analytics tool designed to provide comprehensive visibility into cryptographic systems.
- Key Features:
 - Real-time monitoring and assessment to identify vulnerabilities and threats within cryptographic systems.
 - Customizable compliance policies to ensure alignment with industry regulations and standards.
 - Seamless integration capabilities with existing IT infrastructures.
 - Scalable architecture to support enterprises of varying sizes.
- Achievements: Played a key role in the development and enhancement of analytics capabilities, improving proactive threat detection and compliance assurance.
- Impact: Empowered organizations to monitor, analyze, and secure cryptographic assets across diverse operational environments.

- Technologies Used: React, Next.js 14, JavaScript, TypeScript, CSS, Tailwind and modern frontend frameworks.
- Key Responsibilities:
 - Led the development of the frontend architecture for a web application using Next.js 14, ensuring scalability and high performance.
 - Designed and implemented core UI/UX components, focusing on responsiveness, accessibility, and user-centric design.
 - Integrated API endpoints and optimized state management using tools like Zustand or Context API for seamless data flow.
 - Utilized advanced Next.js features, including server-side rendering (SSR) and static site generation (SSG), to enhance application performance and SEO.
 - Conducted code reviews and collaborated closely with backend developers and designers to ensure alignment and consistency.
- Achievements:
 - Delivered a production-ready frontend that served as the foundation for scaling the application.
 - Improved page load times and user interactions through efficient rendering strategies and asset optimization.
 - Acted as a mentor to junior developers, fostering a collaborative and high-performing development environment.

DLS INC.

Web Developer

December 2021 - March 2023 (1 year 4 months)

Hanoi, Hanoi, Vietnam

- Developed high-quality SEO websites using Reactjs (Nextjs) for e-commerce stores, optimizing user performance.
